

Please keep in mind. All browsers (Chrome, Firefox, Edge, etc.) are stopping support of Flash. Flash has many security issues which are harmful to computers and devices.

These Steps are valid for Chrome Version 70.

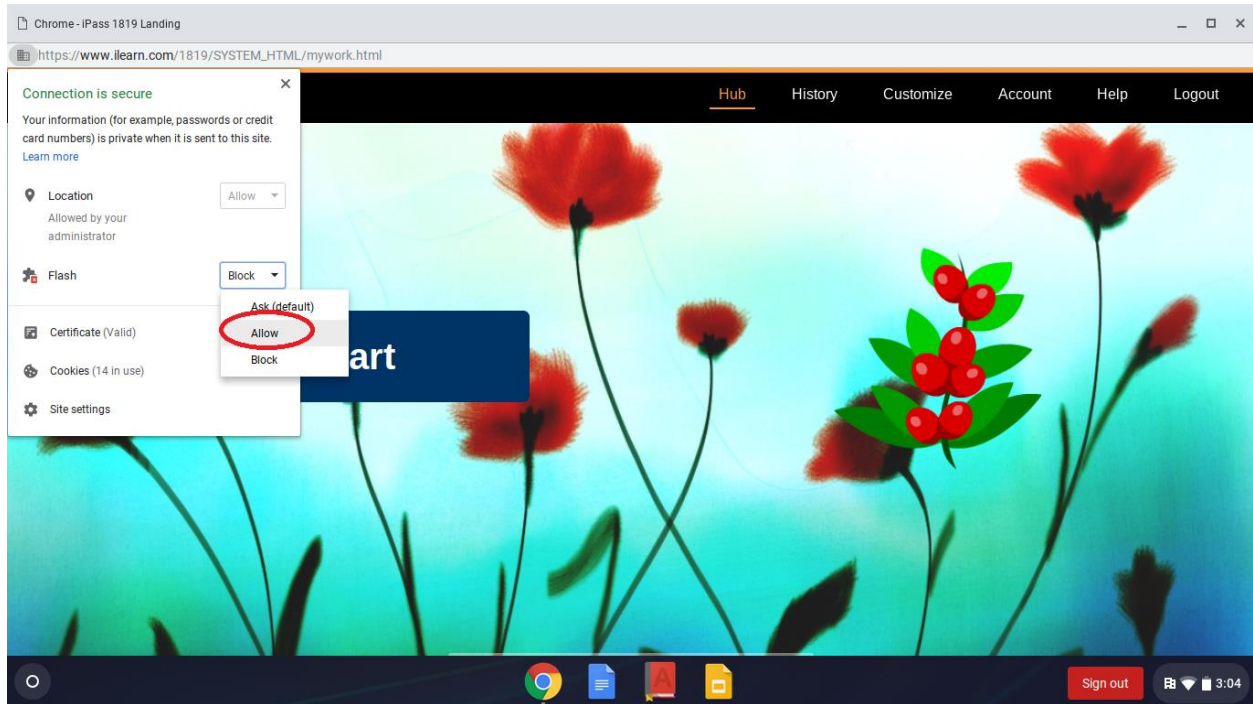

1. Turn on the Chromebook, open your Chrome Browser, or click on the IStation App.
2. Move your mouse into the circled area of your mouse as shown below and left click your mouse button (Hint click to the left of https://www.ilearn.com/).

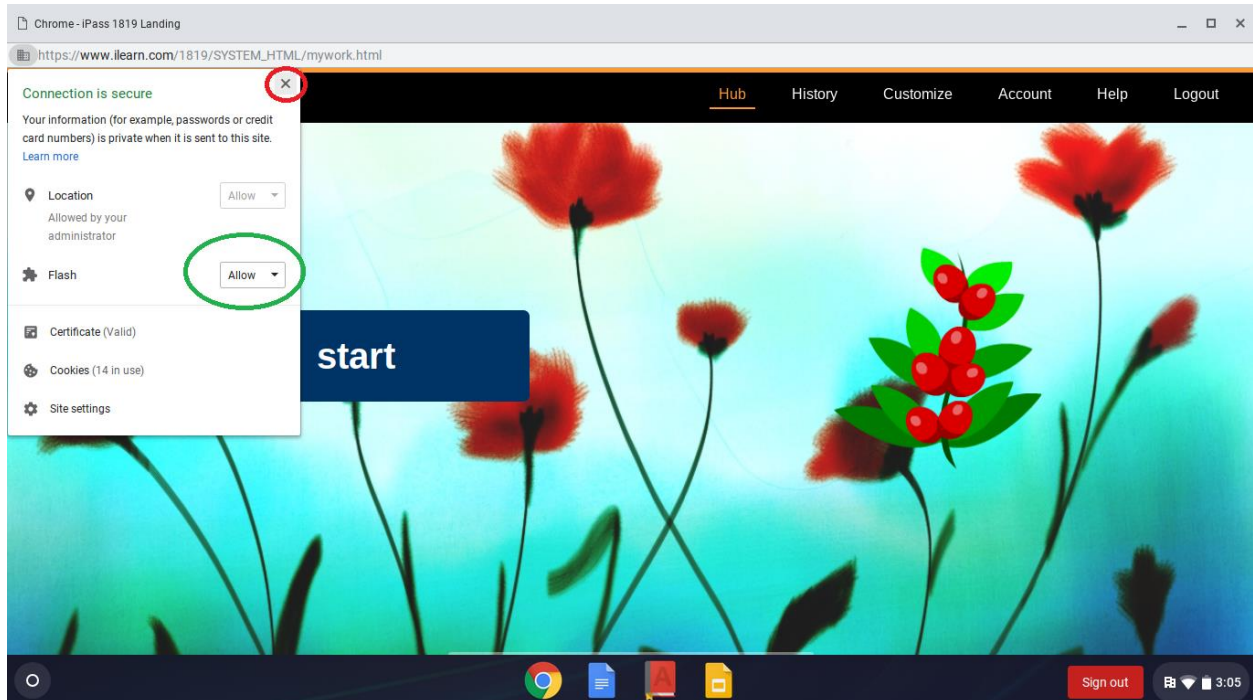

3. Look for Flash and click on the drop down arrow as circled below.

4. Click on "Allow". Circled below.

5. Make sure "Allow" is showing beside Flash (Circled in Green). Click on the "X" circled in Red below.

6. Click Reload (Circled in Red Below).
